

FILE NOTE – Library for Home Educators

Subject: Home Education Library Access and Resources

Date: 24 September 2018

I have spoken to Jordana Lory who is an Information Services Co-ordinator, but currently filling in at the Launceston Library and she has confirmed that Home Educators can get an extra library card as well as their own personal card, which allows them to get an extra 15 titles for the 3-week period. This can be extended twice provided the title has not been placed on hold for someone else.

All they need to do is take their Home Education ID card or a letter from the OER in to obtain this extra card.

There are no Home Education sections in the library as such however; we can request certain titles be purchased for the library. Jordana said that if we came up with a list of titles that would be relevant and popular for home educators we could send her an email and she could request them in bulk on our behalf.

Home educators can also request individual titles via the following form on the Library website.

<https://libraries.tas.gov.au/how-to/Pages/recommend.aspx>

Recommend a library title

If we don't have the lending library item you are looking for, let us know. Please allow 10 working days for your suggestion to be processed. If we order it, we will place a hold on your behalf so long as your limit of 15 holds has not been reached.

We cannot respond to individual recommendations and cannot guarantee the item will be purchased. Some suggestions are not purchased because

- they are out of print
- the format is unsuitable for the lending collection
- the subject is already well represented in the collection
- there are budget limitations.

For more information about the type of material that is purchased for the lending collection, please read about our collections.

You must complete fields marked with * to submit the form.
